## 2001 ECITPA Pulling Rules: Super Farm

1. Contest is limited to 2 wheel drive pneumatic tired tractors.
  2. Contestants must pay dues and be a member in good standing before pulling. Contestants under 21 must have written consent of parents or guardian and ECITPA Board of Directors.No one under 16 years of age will be allowed to drive.
  3. Tractors may enter only once in each class.
  4. Weight includes driver. Weight must be securely fastened. Weight may be certified at designated pulls. A competing driver may ask to weigh the winning tractor with a tolerance of 2% allowed, if tractor is certified. When a tractor is weighed protestee and protestor will be weighed.
  5. Each competitor will be allowed two attempts to make a measureable pull.
    - A. An attempt is defined as moving the sled a measureable distance (one inch or more)
    - B. On his/her first attempt, if competitor lets off on the throttlet before going 75 feet, said competitor will get a second attempt, even if he went beyond the 75 foot mark.
    - C. If no attempt is made to back off the throttle, no second attempt will be granted.
- Note:* Intent is for driver not to slam on brakes to stop before 75-foot mark (or any time) but to come to a smooth, safe stop.
- D. Cleaning of the track is up to the driver after a false start.
6. A tractor that does not go 75 feet and stays inbounds will be given a second chance except on pull-offs, where a tractor has only one attempt no matter what distance pulled. If a driver has trouble with his tractor on the first attempt, he may drop to last and has only one attempt. If the sled operator resets the sled, the first puller may drop to last.
  7. The first tractor in each class has the option to come back in 3rd major position. The driver must tell the track judge before he moves away from the the sled if he so wishes.
  8. No excessive jerking when starting or during pull.
  9. If tractor hitch breaks, the measurement will be taken at that point.
  10. Tractor pulling the farthest before stopping will be declared the winner of that class. Distance will be measured from front center of sled if manual measuring is required.
  11. Pull is ended when forward motion stops or if tractor goes out of bounds. Excessive digging will not be tolerated.
  12. Contest will be governed by a judge or judges with all decisions being final. Safety will be foremost consideration. Dangerous or unfair practices will be reason for disqualification. Any of the following "A" thru "L" while under the green flag will be automatic disqualification:
    - A. Driver does not remain seated.
    - B. Loss of weight while still hooked to the sled.
    - C. Loss of any safety equipment.
    - D. Loss of any shielding.
    - E. Any time the tractor goes out of bounds.
    - F. If driver shows any unsportsmanlike conduct.
    - G. Driver must wear shirt, shoes and full length pants before competing in the pull. Helmet and jacket are required
    - H. Severity of punishment is to be at the discretion of the ECITPA board of directors, although a major rules infraction such as illegal entry or flagrant violation of safety rule may cause contestant to be barred from competition for 1 year and 1 day from that date, and/or withdrawal of accumulated points.
    - I. The ECITPA board of directors resume the right to change, correct, delete, or add any rules that might become necessary during any pulling season.
    - J. On excessive alcohol consumption:  
First offense: Contestant does not compete that day and no points awarded.  
Second offense: Contestant does not compete that day and loss of points for one year.  
Third offense: Contestant does not compete that day and loss of points for 1 year plus barred from competition for one year and ten days.
    - K. Excessive loss of fluids (coolant, motor oil, transmission oil, rear housing oil, water, etc.) while under the green flag.
    - L. Driver leaves the tractor seat while in the staging area or any time the engine is running or is going to be started.

## 2001 ECITPA Pulling Rules: Farm Stock

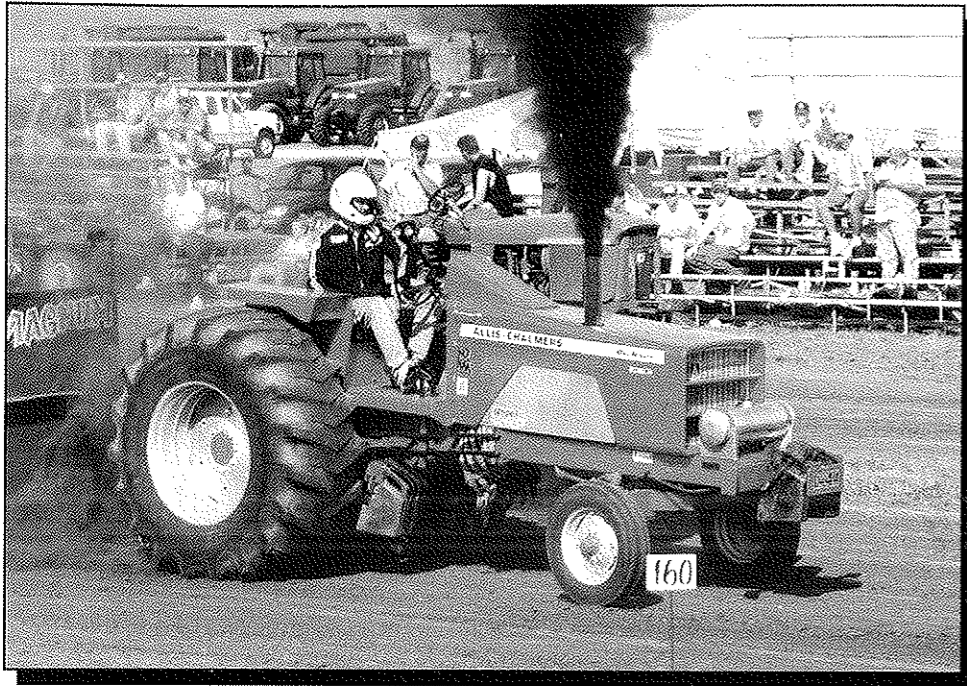

1. All ECITPA stock farm tractors will be of a stock chassis, engine and frame configuration. Any deviation from this must get board approval.
2. Weight class will be as follows:  
8000 lb. Farm Stock - 410 CID or less  
9000 lb. Farm Stock - 410 CID or less  
11000 lb. Farm Stock - 650 CID or less  
12000 lb. Farm Stock - 650 CID or less  
There must be 200 lb. of movable weight in all classes.
3. Turbo chargers - 3LM/TO4 or factory replacement turbos are allowed. Add-on turbos are allowed. Only one turbo per tractor. There will be a \$500.00 claim on all turbos.
4. RPM - 3000 RPM or less will be enforced and measured off crankshaft with a hand held tachometer. Any tractor found over 3000 RPMs after they have pulled will be disqualified immediately and without reimbursement.
5. Tire sizes: 8000 lb. and 9000 lb. classes - 18.4 x 38  
11000 lb. & 12000 lb. classes - 20.8 x 38 or 18.4 x 42 max.  
Cut tires are legal.
6. PTO/HYD. - Not required.
7. There will be no water/alcohol injection allowed.
8. 10 mile per hour speed limit enforced. Will be policed by the sled or pace tractor if needed.
9. No weight protruding beyond the rear tires. Hitch must be free and clear and able to reach with hook without excessive work. Sled operator has right to decline hook to any tractor regarding this matter.
10. Plastic blades verses metal blades are acceptable but not mandatory.
11. Snuffers are recommended but not mandatory.
12. Wheelie bars are mandatory and must be the same dimensions as Super Farm.
13. If the speed limit horn sounds, driver may finish pull in a controlled fashion. Failure to do so will result in loss of previous accumulated points.
14. ECITPA reserves the right to make any changes at any time to these rules. All other rules pertaining to contest rules are strictly enforced.

**YES! WE ARRANGE FINANCING**

The MUSTANG 2050 has the versatility you need, with the power and performance that you want. The 2050 features a smooth, riding extended wheelbase, 1550 lbs lift capacity (SAE), 18.5 GPM auxiliary hydraulic output, and a 49 horse diesel engine. If you need more lift capacity, add the optional weight kit to raise the lift capacity to 1650 lbs. Test drive one today and experience the MUSTANG advantages.
