EAST CENTRAL IOWA PULLERS ASSOCIATION

## 2017 CHAMPIONSHIP SOUVENIR PROGRAM

[www.ecitpa.net](http://www.ecitpa.net)

## *A letter from the president...*

Continued growth through poor commodities, hard to believe? It's true, 2016 was another year of growth for ECI, passion for pulling never ceases and maybe drivetrains were stretched a little thinner than normal, but still competition was fierce. It was great seeing longtime ECI family, The Mohrs, winning the LLSS point championship. Through the highs and lows of everything, we still are here for one reason and that's to fill an internal competitive desire for horsepower and adrenaline.

Competition is best when the classes are full and followed the whole year. It's amazing how grueling the road can be from the first pull to the last. Juggling full time jobs, farming on the side and pulling in between the hours that we don't have to spare is a testament for the loyalty we have for this sport. Pulling is continually evolving and tractors horsepower is growing. In an effort to keep up with budgets and new venues, we will keep adding classes as long as we have tractors to fill them.

With strong leadership and an attitude that does not waver in the face of adversity, stand by me and I will prove that anything is possible. I will mend every limb on the family tree of pulling we have. I will not back down to the intimidating forces, that stand in the way of progress in the name of selfishness and how things used to be, as we mold ourselves into the premier pulling force in the state of Iowa.

Wyatt Blackford—ECIPA President

***Make sure you follow the ECIPA on social media for up to date results, photos and videos throughout the year!***
